

Session IV

Recommendations/Conclusions:

- Acknowledged the important role of science, technology and innovation, and technology transfer to advance Sustainable Development Goals 2, 6, 7 related WEF nexus.
- Relevant WEF nexus stakeholders are encouraged to use existing platforms to facilitate technology transfers
- R & D institutes and other non-governmental stakeholders (such as academic institutions & private sector), play an important role to mainstream and advance WEF nexus
- Recommend to establish inter-governmental/scientific network to continue nexus discussion and facilitate implementation of WEF nexus approach into national policy

- Deepening of scientific understandings related WEF nexus and the need for capacity-building activities
